Foreword:

Thank you for purchasing this Godox Product!
SL Series video lights are excellent for product shooting, photojournalistic and video recording, etc. It creates stable light resource and even illumination for photography. Two models are available: White Version (5600K), Yellow Version (3300K).

Features:
- 60W LED bulbs guarantee high light brightness
- Using lithium battery pack (can be in common use with AD600 series lithium battery). And compatible with AD-AC power source that can be used indoor.
- The color rendering index is over 93, presenting the objects authentically
- Wirelessly adjust light brightness, wireless 433MHz grouping system (6 groups & 16 channels)
- Large-sized LCD panel. Settings auto saved
- With temperature control function to prevent overheating
- With specialized protect cover to protect the LED beads
- With red copper heatsink and built-in fan to offer excellent heat dissipation

For your safety:
- Do not place in high temperature or high humidity conditions.
- If this product overheats, it will cease operation and resume working after cooling down. This is due to the built-in overtemperature protection.
- Do not handle with wet hands, immerse in water, or expose to rain.
- Do not disassemble or modify this product. Should the product break open as the result of a fall or other accident, send the defective back to authorized service center for inspection and maintenance.
Parts

Body
- 01. LED Beads
- 02. Protect Cover
- 03. Heatsink
- 04. Accessory Slot
- 05. ON/OFF Power Switch
- 06. Select Dial + SET Button
- 07. CH/GRP Button
- 08. LCD Panel (White in Blue)
- 09. Mounting Bracket
- 10. Umbrella Input
- 12. Lithium Battery

Remote Control:
- 01. LCD Panel (Black in White)
- 02. Power Switch
- 03. CH/GRP Button
- 04. SET Button
- 05. ‘-’ Button
- 06. ‘+’ Button
- 07. Battery Compartment
- 08. Battery Compartment Cover

Accessories
- Lamp Cover
- Power Cord
- Battery charger
- Remote Control
- Standard Reflector
- Lithium battery pack
- AD-AC Power Source (Optional Accessory)

Operation

Using the Video Light
- Connect the light with lithium battery pack.
- Long press the ON/OFF button for 1 second to turn on; press again the ON/OFF button to turn off.
- LCD panel shows the information.

Light Brightness Adjustment
- Turn the select dial to adjust the light brightness.
- The light brightness adjustable range is at 10%~100%.

Temperature Indication
- This video light checks its temperature at any time to avoid dangerous situations. It will auto power off when the temperature is too high.
- Press the SET button for 2 seconds and the temperature can be switched between Celsius and Fahrenheit.
- Quickly double-click the SET button, the temperature icon will blink, you can turn the select dial to set the temperature (40°~60°) with fan.
Wireless Remote Control
With 433 MHz wireless system, this product has remote grouping and control function. Up to 6 groups of video lights can be controlled. 16 channels are available with strong anti-interference capability.

- Please set the channels and groups of video light to the same as those of remote control before usage.
- When using the White Version, please set the color temperature of the remote control as 5600K constantly;
- When using the Yellow Version, please set the color temperature of the remote control as 3300K constantly;

Adjusting Channel/Group of the Video Light
- Press the CH/GRP button and the group icon blinks. Turn the select dial to choose a group ID (A to F).
- Press the CH/GRP button twice and the channel icon blinks. Turn the select dial to choose a channel ID (1 to 16).

Adjusting Channel/Group of the Remote Control
- Press the CH/GRP button and the group icon blinks. Press the "-""+" button to choose a group ID (A to F).
- Press the CH/GRP button twice and the channel icon blinks. Press the "-""+" button to choose a channel ID (1 to 16).

Adjusting Light Brightness/Color Temperature with the Remote Control
- Press the "-""+" button to adjust the light brightness.
- Press the SET button of the remote control once and the color temperature icon blinks. Press the "-""+" button to adjust the color temperature.

Other Operation Tips:
- Pressing the ON/OFF button on the remote control can turn on/off all the video light groups.
- Pressing the "SET" button on the remote control for 2 seconds can turn on/off the current video light group.
- Please remove the battery if the light will not be used for an extended period of time.

Battery
Features
1. This Video light uses Li-ion polymer battery (can be in common use with AD600 series lithium battery) which has long runtime. The available charge-and-discharge times are 500.
2. It is reliably safe. The inner circuit is against overcharge, overdischarge, overcurrent, and short circuit.
3. Take only 4 hours to fully charge the battery by using the standard battery charger.

Cautions
- Do not short circuit.
- Do not expose to rain or immerse into water. This battery is not water proof.
- Keep out of reach of children.
- No over 24 hours’ continuous charging.
- Store in dry, cool, ventilated places.
- Do not put aside or into fire.
- Dead batteries should be disposed according to local regulations.
- If the battery had ceased using for over 3 months, please make a full recharge.

Loading and Unloading the Battery Pack

1. Match the battery’s groove with the main battery compartment’s ridge.
2. Push down the battery pack until it is locked.

Unloading:
1. Push the Battery Locking Ring to the right.
2. Push the battery pack upward to unload it.

When there are some abnormal situations in the inner video light, the relevant LCD signs will blink as warnings. For example:
1. When the fan stops working due to fault, signs will blink to alarm.
2. When heatsink’ temperature is over 70 Celsius degrees, the temperature on the LCD panel will blink and the video light will stop working.
3. When the battery level is low, the battery icon will blink and the video light will stop working.
### Battery

**Battery Level Indication**

Make sure the battery pack is securely loaded in the video light. Check the battery level indication on the panel to see the remaining battery level.
